# THE MONTESSORI CLASSROOM

*“Education is a natural process carried out by the child and is not acquired by listening to words but by experiences in the environment.”*

Dr. Maria Montessori

Montessori School of Agoura aspires to maintain the very highest standard of Montessori education in the tradition created by Dr. Maria Montessori. This effective and nurturing method of education emphasizes each child’s potential and natural love of learning. Our goal is to nourish this love and develop the child’s whole personality. We recognize the child’s need to learn by doing and encourage independent learning using specific Montessori tools.

We maintain an excellent student to teacher ratio to ensure each child receives individual attention. The teacher guides each child according to her own abilities, teaching her how to use the Montessori materials that reward her with exciting discoveries while reinforcing a positive attitude towards learning.
